FREEDOM TOWNSHIP
PLANNING BOARD

R. D. 2. GETTYSBURG, PENNSYLVANIA 17325
ADAMS COUNTY

October 9, 1974

Mr. John Herr, President,
Freedom Township Board of Supervisors,
R.D. 2, Gettysburg, Pa. 17325

Dear Mr. Herr:

The Freedom Township Planning Board has reviewed the preliminary plan of ~~R. D. Haggart and Associates for their subdivision along Middle Creek to be known as Section A, Maske Manor Subdivision.~~ We cannot approve the plan due to the following deficiencies:

1. The name and address of the owner and of the engineer/surveyor do not appear on the plan.
2. No location key map is shown on the plan.
3. Distances and bearings along the boundary lines are not shown.
4. As regards the contour lines - have they been drawn in the field or have they been interpolated from the USGS map? The line designating the floodplain does not follow the natural land contours. When the floodplain line is shown in its proper place, the majority of each lot on the plan lies within a potential flood area. Those of us who have resided in the township for several years have witnessed such flooding at these locations.
5. There are given no Deed Book numbers for adjacent property owners.
6. The street should be continued through the subdivision to prepare for the possible future development of the Gordon property to the east. It must meet state and township specifications and these should be shown on the plan.
7. There are no utility easements shown - are there utilities located in the area being subdivided?
8. The location of a successful completion of a soil profile analysis and soil percolation test must be shown for each lot on the plan, and Act 537 revision requirements must be met and shown.

Thank you for your consideration of our recommendations regarding this plan.

Sincerely,

Paul Heffner

The regular meeting of the Freedom Township Board of Supervisors was held at 7:10 P.M. at the Greenmount Firehall.

The meeting was called to order by the Board Chairman. All Supervisors were present. Also present were Chief Breighour, Attorney Robert Campbell, Attorney Henry Heiser, Mr. Ronald Haggart and Col. J. R. Hershey.

Attorney Heiser spoke on behalf of his client, Mr. Haggart, of Haggart Associates, requesting the Supervisors grant Mr. Harry Helmke a building permit for an implement shed on the ten-acre plot he had purchased from Mr. Haggart. He stated that, in error, or ignorance of the law, this plot was sold before a subdivision was approved by the Supervisors. A lengthy discussion followed on the matter of use of the land, DEK requirements and road access, etc. Mr. John Callendach arrived at the meeting during the discussion. Mr. Weitzel stated the Board had refused to issue a permit as no plan at all had been received of Tract "B" of Meske Manor Subdivision and that Tract "A" approval was still pending. Mr. Haggart apologized profusely for bringing this problem to the Board & stated if he had been aware of the subdivision regulations regarding 10 acre or more plots, he would not have sold the lot to Mr. Helmke. Messrs. Heiser, Haggart & Hershey then excused themselves from the meeting after Attorney Campbell decided he & the Board needed more time to study the matter. Further discussion was then carried out & the following motion was made by Mr. Weitzel, seconded by Mr. Gordon & carried - A building permit will be issued to Mr. Harry Helmke of the proper application, provided that Haggart Associates give written verification that a subdivision plan will be submitted for approval within 60 days of this date, and provided that Mr. Helmke will give written verification that he will save the Township harmless from any liability that may be incurred as a result of their issuing the building permit prior to final approval of a subdivision plan.

Mr. Callendach then excused himself from the meeting.

Attorney Campbell discussed with the Supervisors the Errors & Omissions Policy that he recommends from McCoy Insurance Agency. McCoy Agency will provide the same coverage for the same rate as that submitted by H & G Thomas Co. Mr. Campbell also stated the Township will have to obtain a personal injury policy in order to obtain E.O. from anybody as the present liability policy covers only bodily & property damage. He also suggested a review of the existing liability policy. After discussion, a motion was made by Mr. Weitzel that Freedom Township Supervisors obtain Errors & Omissions insurance, plus personal injury liability through McCoy Insurance Agency. The personal injury liability in the amount of \$300,000.00 (the required amount) will be \$122.00 annually & the E.O. policy to be one million dollars each loss, one million aggregate, annually at the rate of \$390.00 - total cost for one year \$402.00. Mr. Gordon seconded the motion, which carried. Mr. Campbell then left the meeting.

The minutes of the special meeting were read. Mr. Weitzel made a motion that the minutes be accepted & approved as read, seconded by Mr. Gordon & carried.

The secretary reported receipt of the performance bond from Hugh Becker in the amount of \$2,125.00.

Mr. Weitzel reported road inspection had been carried out April 8 & most roads were found to be in good condition.

The regular meeting of the Freedom Township Board of Supervisors was held at 7:00 P.M. at the Greenmount Tackhall. Present were Supervisors Herr, Weitzel & Gordon. Also present was Cumberland Township Police Chief Ray Broughner.

The minutes of the July 9, 1975 meeting were read & accepted on motion of Mr. Weitzel, seconded by Mr. Gordon.

Chief Broughner reported the following for the month of July: Total calls answered: 5; Criminal arrests, motor vehicle accidents investigated & arrested: 0; 1 house burglary investigated; 1 request for home check & 1 account to other police dept; 20 hrs. were spent patrolling in the Township.

The Board decided to meet the morning following this meeting at the Peterson property on Middle Creek Road to check on the activity which Mr. Herr reported seeing recently.

Mr. Wilbur Redding appeared before the Board - a plot plan of his property on which a trailer has been placed & which he intends to use as a home as soon as the plan is approved. He stated he had installed the tile drain himself. Mr. Weitzel asked if Mr. Allen Shultz, the Township Sewage Enforcement Officer, had approved the site & when Mr. Redding answered negatively, Mr. Weitzel stated that a building permit will not be issued until it is inspected & approved by Mr. Shultz. Mr. Redding stated that he expects to be registered as a Sewage Enforcement Officer within a month & since he felt he had complied with the Township Ordinance regarding subdivision, he could see no reason why the Board would not approve the plan for a building permit. Mr. Weitzel again reminded him that the Township Sewage Enforcement Officer would have to approve the system, at which time Mr. Redding stated he would consult his attorney.

Mr. Weitzel made a motion to pay the bills, seconded by Mr. Gordon.

The State expenditure report for 1975 + municipal budget for 1976 were approved + signed by the Board.

The Agreement, Contract + expenditure forms for flood damage were approved + signed. Damage was listed as: \$ 470.66 for South Road + \$ 257.31 for Rohrbaugh Road - total \$ 727.97.

Mr. Wilbur Redding appeared before the Board to protest a decision made by the Township Sewage Enforcement Officer, Alan Shultz, that a sand mound only could be used for sewage disposal on his lot on Bullfrog Road. He stated he had contacted Mr. Shultz, who came out to the property, looked at it and said a sand mound had to be used. A percolation test also had to be made. He stated he informed Mr. Shultz by telephone of the date for the test but when the final testing was done, Mr. Shultz was not at the site. Mr. Redding completed the test, gave the results to Mr. Shultz who decided the soil was suitable only for a sand mound. Mr. Redding then listed the results of his percolation test and a soil report of tests he had conducted for a system will be approximately

200 gallons a day as he lives alone and probably will not spend much time in the trailer even then. He stated that while his soil analysis is not 100% proof, it is fairly adequate that the test was done on site and not taken from any chest. Mr. Redding stated he intends to install a conventional system under protest and will then take Mr. Shultz to court to get a sewage permit.

A letter was read from Mr. Shultz to the Board of Supervisors, outlining his reasons for denying a permit for anything but a sand mound, stating the granulation test results had been acceptable but the issuance of a permit is grounded on soil suitability, which, in his opinion, is not acceptable for a conventional system at this site.

The Supervisors informed Mr. Redding that they cannot overrule Mr. Shultz' decision and suggested the only thing he could do was to get an independent soil analysis made. Mr. Redding refused this suggestion by stating a court order would be needed for someone to come onto his property. Mr. Westzel questioned how anyone could check on the tests if he would not allow further testing to be done and asked Mr. Redding exactly what his intentions were on this matter. Mr. Redding stated he does not want to ask the Board to do anything that is illegal and is not going to attempt to do anything not in accordance with the rules and regulations but "I am going to take it to court". Mr. Westzel then thanked Mr. Redding for coming to the meeting and expressing his opinion and stated the Supervisors are sorry they can do nothing for him. The Supervisors agreed they are not qualified to make a decision in regards to the type of soils that are acceptable under Act 537.

The motion to adjourn the meeting was made by Mr. Westzel, seconded by Mr. Herr and carried.

Mr. James McAllister appeared before the Board with a rental contract for the Epoke Model TK 12 Spreader S/N 12534. \$ 297.34 will be paid monthly for five (5) months with option to purchase, said rental to be subtracted from the selling price of \$ 3900.00.

Attorney Robert Campbell arrived at the meeting to discuss the sale of 19.8 acres as one plot by Haggart Associates. After lengthy discussion & review of the Planning Module sketch plan & Transmittal letter, the Board agreed that as far as DER is concerned, everything appears to be satisfactory, but that no definite approval to the sale can be given until Haggart Associates submit a complete plan for Township approval, since approval of the 19.8 acre tract would, in effect, grant approval to the easement or access for the remaining lots owned by Ronald J Haggart Associates. The Supervisors request a formal plan filed so that they can determine the exact location of the roads or access to the other land owned by the developer.

Attorney Robert Campbell arrived at the meeting with a one-lot subdivision plan (19.8 acres) Haggart Associates wish to sell to Mr. Staples. Review of the plan & discussion of the on-site inspection of road access was carried out with advice from Atty. Campbell that the plan not be approved at this meeting. Attorney Murray Freze, Jr. & later Mr. Ronald Haggart arrived at the meeting. A lengthy discussion was carried out by the three attorneys, Messrs. Freze & Haggart stating this plot is over ten acres & according to DER regulations is agricultural, it has access to a State road and a satisfactory module prepared for DER & under these circumstances the Supervisors have no legal grounds not to approve it. Mr. Campbell stated that all Supervisors, he, Mr. Allen Skully, Township Engineer & Mr. John Cullenbach, Adams Co. Director of Planning, had investigated the site of access to the State road, all found it to be located on an extremely dangerous & hazardous stretch of road & that he, as Board Solicitor, felt it his duty to advise against approving the plan. He felt that at some future date, this landowner or landowners situated behind the 19.8 acre lot may feel it was the Board's responsibility to ensure a safe access or any access to a road at all. Mr. Freze stated he thought Mr. Cullenbach was not on sound legal ground in ruling

the access point dangerous but Mr. Campbell replied that since Mr. Shutz had called him in as Consultant he felt his expertise in this area was quite sound. Mr. Haggart stated he withdrew a full subdivision plan because it was not financially possible for him to follow the regulations regarding road building & had then decided to sell his property in one lot, over 10 acre plots. He stated the buyer knows the situation & has made arrangements with a private contractor to cut access to the road, that all lots will be sold fee simple & that he does not anticipate building any roads on his property. Mr. Campbell ruled that the Board would not accept a gravel road, according to subdivision regulations. Mr. Fryze asked if there was any possibility of obtaining a building permit for the Staples, to which Mr. Campbell replied "not without a formal complete plan as outlined before, with the lots indicating access to a public road". Mr. Fryze stated he did not think the Supervisors have the authority to say where access to a state road should be & have no power to say Mr. Haggart cannot sell or the Staples cannot buy. Mr. Fryze asked of a deed was recorded, would Mr. Haggart be subject to Criminal penalty - Mr. Campbell stated technically he would say yes. When their lot is sold, Mr. Heloka will not have any access. Mr. Fryze stated Mr. Heloka is landlocked & will probably sell. He also stated that Mr. Haggart could sell the back lots as ones. Mr. Haggart stated that if the Board takes this position as on lot #1, many illegal building permits probably have been issued. Mr. Campbell replied this may be so. Mr. Haggart stated he thinks his position is such that he is being discriminated against and the Board would probably allow anyone to come in from the street to proceed. Mr. Campbell stated he wished to discuss the matter further with the Supervisors, Messrs. Gully & Callenbach & would let Mr. Fryze know the results. Messrs. Fryze & Haggart then left the meeting. (See one complete note attached to this page)

The secretary informed the Board she wished to resign because of an increased work load in Cumberland Township & set June 1, 1977 as the final date. Plans were then discussed for hiring a new secretary - ^{Proposed} salary \$100.00 per mo. or 5% of the expenditures, whichever was greater.

There being no further business, the meeting was adjourned.

The next meeting will be held at 7 PM on February 9 at the Greenmount Fairhall.

Eloise M. Wilson
Secretary

The regular meeting of the Freedom Township Board of Supervisors was held at 7 P.M. at the Greenmount Firehall. All Supervisors were present. Also present were Mr. & Mrs. Henry & Mrs. Laurice Cullison.

The Tax Collector's final report for 1976 showed Real Estate Tax in the amount of \$288.17 (18 lines) has been turned over to the Adams County Tax Collection Bureau for collection.

Mr. & Mrs. Henry appeared before the Board to request information on the plowing of only a portion of T-401, where they live, and not continuing further on down the road. A lengthy discussion followed on the narrow width of the road, making it difficult for the plow to get through. Mrs. Henry stating she wished the road would be repaved & blacktopped. Mr. Horton stated that stone could be laid down to Mr. Livingston's property & then dust oil applied this summer. The Board stated there are no plans for blacktopping at this time. Mrs. Cullison stated her husband has been plowing the road for 16 yrs. but can no longer continue to do so. The Board assured them that everything possible will be done to help their situation. A discussion then centered on Township business & how money spending decisions are made.

Mr. Deatherage from Stephenson Equipment Co arrived at the meeting with another rental agreement for the Epske Spreader. The previous one had been signed in the wrong space.

Mr. Donald Ledbetter appeared before the Board with complaints regarding snow removal by the Township truck on private property. Mr. Herr explained in the one instance the plow had to be repaired & was driven to the Hobbs property for this work. While there, plowing had been done but the Board agreed that private property cannot be plowed & only Township roads in the future, which are the Board's responsibility, will be plowed.

At this point Attorney Robert Campbell arrived at the meeting. Mrs. Henry inquired as to the future possibility of a land use ordinance in the Township. Mr. Campbell explained the present Subdivision Ordinance, its enactment, etc., & that no comprehensive plan or zoning ordinance are in effect at this time & none is anticipated. Mr. Campbell further explained the procedure for subdivision & DER's requirements on planning modules & permits.

Attorneys Freyer & Haggart arrived at the meeting & a lengthy discussion ensued on the sale of the 2 1/2 acre property to Mr. & Mrs. Staples. It was finally agreed by all parties & a motion made by Mr. Weitzel, seconded by Mr. Herr to adopt a Resolution incorporating the following conditions: The Board of Supervisors will not require the filing of a subdivision plan for the tract designated as Tract #1 on the draft of Donald D. Haggart & Associates & will subsequently issue a building permit for Tract #1, provided that a revised planning module for on-site sewage first be presented & approved by the Dept. of Environmental Resources; provide that a deed or right-of-way agreement guaranteeing access to the Harry Helms property be tendered to & accepted by the Helms & properly recorded (said right-of-way to be at least 50 feet wide); & provide that the deed for Tract #1 states that the tract of land is to be used primarily for agricultural purposes & cannot be further subdivided. (See attached Complete Resolution).

The secretary was instructed to submit the revised Planning Module to DER as soon as possible. These gentlemen excused themselves from the meeting.

The minutes of the previous meeting were read & approved by motion made by Mr. Weitzel, seconded by Mr. Herr & Carand.

The Actual Use Report for Entitlement Period 7 of Revenue Sharing Funds was signed & will be advertised.

Mr. Weitzel made a motion to adopt a Resolution of Gettysburg Engineering Co. revising the Fee Schedule for Administration of the Sewage Facilities Act (537) & appointing Mr. Dean Shultz & Mr. Edward Mott as Sewage Facilities Officers. Motion seconded by Mr. Herr & Carand. It was noted the fee schedule is the same as 1976 with the exception of Item IV which increases the transfer cost for sand mounds from \$35.00 to \$45.00. Gettysburg Engineering felt this cost was justified & necessary because of the extensive work. A note also added stipulating that all

Applications must be completed in two years or a new application must be made. This correlates with DER's ruling that a permit is good for only two years.

A motion was made by Mr. Weitzel, seconded by Mr. Herr, to pay the bills.

Police Protection	\$ 1,200.00
Highway - Maintenance,	
Repairs, Tools	48.80

	\$ 3,149.28

The estimated amount to be received during fiscal during 1978 is \$2,975.00, plus an estimated unappropriated or unobligated balance as of December 31, 1977 of \$1,500.00, or a total estimated Revenue Sharing Budget amount of \$4,475.00.

A special meeting of the Freedom Township Board of Supervisors was held, as advertised, at 7:30 pm at the Greenmount Firehall. Present were all Supervisors and representatives of the Yettipburg and Greenmount Fire Companies. This public meeting was called for the purpose of discussing fire protection and ambulance service in the Township.

Mr Weitzel read a letter addressed to James Green, Greenmount Fire Chief dated May 17, 1977 stating that the Board of Supervisors would grant Greenmount Fire Department sole authority in the Township to answer fire calls, conduct solicitations and request, when necessary in structural fires, mutual aid, from various local departments in the vicinity.

Chief Green opened the discussion by outlining the equipment and services provided by the Greenmount Firemen and discussing the boundary dispute with Yettipburg.

James Pitt, President of the Yettipburg Fire Department, outlined his viewpoint on the fire situation in portions of the Township, outlining a number of hypothetical cases showing that Greenmount would have to travel further to reach the fire than would the Yettipburg Firemen.

Neil Rothaupt, First Assistant Chief of the Greenmount Fire Company spoke of discussions on boundaries for the various fire companies at various meetings of the Adams County Fire Chiefs Association.

Gerald White, Yettipburg Fire Chief, outlined the numbering system Yettipburg Firemen are planning for their district, and noted that the use of the numbers will expedite arrival of the fire company to the scene of emergencies because reference to the number will disclose exactly where the fire or other emergency is located.

John Baugle of the Yettipburg Fire Department Ambulance Corps spoke of the service given by the ambulances which is free of charge to those within the Yettipburg Fire District, but a charge is made outside the District. Allocation of all of Freedom Township to Greenmount removed from the Yettipburg District those areas previously served by Yettipburg, thus putting the residents of Freedom Township in the pay zone.

After a brief discussion among the Supervisors, they decided to stand by their decision of naming Greenmount Fire Company responsible for fire protection in the entire Township.

Mr Witzel made a motion to tentatively adopt the Budget for 1978 in the amount of _____ seconded by Mr Gordon. The Secretary was instructed to advertise the final adoption for the regular meeting to be held December 14, 1977.

Mr Gordon reported receiving a letter from Bob Pelc, Certified Sewage Enforcement Officer, who would like to be considered for that position for the year 1978. The Board stated that they were satisfied with the work being done by Dean Shultz.

Mr Witzel stated that there were 3 supervisors elected to serve the township and each has the privilege of opposing any matter brought before the Board.

Mr Witzel also stated that there has been some discussion regarding the cost of Police Protection in the township. The \$1,200.00 paid to Cumberland Township is the most economical method at this time as the township could not afford the cost of a police cruiser or the salary of a full time patrolman.

Mr Herr and Mr Charles Scott of Penn Dot met on the 17th of Nov. As stated before, it would cost approximately

\$50,000.00 to pave this road. In addition, a 33 1/3' wide right-of-way would have to be obtained from the residents to install a 24' wide road.

Four building permits were reviewed.

There being no further business the meeting was adjourned. The next meeting will be held December 14, 1977, at the Broommount Firehall.

Mr. Weitzel made a motion, seconded by Mr. Gordon, to adopt the 1978 Budget as presented at the November meeting. The Secretary reported receiving a letter from Ralph Ashcraft requesting permission to use a holding tank until the weather permits the installation of a sand mound on the old Willow bedding property. Mr. Weitzel made a motion, seconded by Mr. Herr, to grant Mr. Ashcraft permission on the following basis:

- 1) Secure an agreement from a reputable pumper to service the holding tank and also secure an agreement from a treatment plant that they will allow the sewage to be treated.
 - 2) That the holding tank be pumped regularly; failure to do so and overflowing of the tank would invalidate this agreement and the mobile home could no longer be occupied until the sand mound is installed.
 - 3) The sand mound must be installed as soon as the weather permits and no later than May 1, 1978.
 - 4) Failure to install the sand mound by May 1, 1978 will constitute a violation of the Sewage Facilities Act and he would be subjected to the penalties prescribed therein.
 - 5) Only Mr. Ashcraft and his family can occupy the mobile home while it is being serviced by the holding tank.

Three building permits were reviewed. The Secretary reported receiving a copy of a letter from the Gettysburg Fire Department to James Fox, Director, Adams County Civil Defense and a copy of Mr. Fox's letter to James Nett, President, Gettysburg Fire Department, regarding fire and ambulance service in the township. Mr. Fox stated in his letter that he was taking no action until the township was officially notified of the Fire Department's intention.

The Township Planning Commission, Horace Waybright, James Henry and Robert Plank, presented the following preliminary and final subdivision: Samuel S. McNair (a one lot plan containing 10.0 acres located along Bullfrog Road). Mr. Gordon made a motion to approve this subdivision, seconded by Mr. Herr.

The Secretary presented three applications for the position of Secretary-Treasurer. It was decided that the applicants would be interviewed at the February meeting and then a decision would be made to fill the position.

The Secretary read a four-page letter from Dean Shultz outlining the reasons he denied a sewage permit to David Thomas. Mr. Shultz stated that the denial of this application is based on soil evaluations in the immediate area of the probe. To substantiate that the soils are suitable or unsuitable over the area in which the sewage system would go, it would be necessary to do a more thorough investigation using a backhoe and have freedom to investigate the areas deemed necessary.

Shultz also stated that within thirty days of receipt of this notice, Mr. Thomas may request, in writing, a hearing before the Board. Hearings or any subsequent appeals to this permit denial shall be conducted pursuant to the Act of December 2, 1968, P.L. 1133, 53 P.S. Section 11301 et. seq., known as the "Local Agency Law."

The Secretary reported receiving \$703.76 from the Commonwealth for fine for the last half of 1978.

The Secretary stated that she had been informed by Cumberland Township that they had raised the Police Protection Contract to \$1,600.00 per year.

The State Expenditure Report for 1978 and Municipal Budget for 1979 were approved and signed by the Board.

James Henry complained about the dirt road and hill leading to his house. He stated that it isn't plowed adequately and had become icy. He requested that the blacktop road be extended about 50 yards to the bottom of the hill and that anti-skid material be put on the icy spots.

The Supervisors stated that they would have to contact the Department of Transportation as state monies would be spent on extending the blacktop. Roadmaster, John Herr, said that he would put some anti-skid material on the icy spots the next day. He also stated that as soon as the weather permitted, the drainage ditches would be cleaned out.

Mrs. Cullison asked the Supervisors to talk to the tax Collector, June Gordon, about what she claimed were unnecessary delays in processing the taxes through the township. Mrs. Gordon is up for re-election in 1982.

There being no further business, the meeting was adjourned. The next meeting will be held February 14, 1979 at the Greenmount Firehall.
